EDUCATION

Rutgers University—New Brunswick | New Brunswick, NJ

May 2029

Bachelor of Arts in Economics and Psychology

- **Relevant Coursework:** College Writing, Calculus I, Statistics I, Intro to Macroeconomics, Intro to Microeconomics

PROFESSIONAL EXPERIENCE

Urban Food Alliance (UFA) | Franklin Park, NJ

Jan 2026 - Apr 2026

Business Analyst Intern

- Leveraged AI tools and LLM frameworks to develop 5+ technical solutions for regional food insecurity challenges
- Conducted thorough gap analysis and defined functional requirements for a chatbot to align tech and business goals
- Partnered with the technical team to fix website faults and improve UI/UX functionality for 200+ monthly active users
- Synthesized feedback between developers and stakeholders to ensure the seamless integration of diverse AI resources

MAS Youth Center of New Jersey | New Brunswick, NJ

Jan 2026 - Apr 2026

Marketing Intern

- Utilized Meta Business Suite to analyze performance metrics and optimize posting schedules for 2k+ targeted followers
- Managed food vendor databases and coordinated logistics for 10+ community events to ensure operational success
- Developed data-driven content calendars to maximize brand visibility and engage audiences across social platforms
- Executed strategic audience outreach by tracking engagement trends and adjusting digital marketing tactics accordingly

Cell Revolution LLC | Edison, NJ

Sep 2024 - Feb 2025

Technical Operations Intern

- Ran structured smartphone diagnostics to identify hardware and software issues to prepare 50+ devices for resale
- Collaborated with team members to clean, test, and repackage devices, improving workflow efficiency and turnaround
- Organized incoming phone and tablet inventory with tracking systems to support smooth daily technical operations
- Followed optimized testing workflows that improved device pass rates and reduced processing time by 20%

PROJECTS

Rutgers Deloitte Case Challenge | HealthE Go-to-Market Strategy

Apr 2026

- Secured 2nd place among a competitive field by collaborating with 2 peers to design a strategic healthcare GTM model
- Conducted a comprehensive analysis using demographic data to identify 4+ core barriers for underserved populations
- Formulated data-driven projections and pricing models to align HealthE subscription costs with 200+ family budgets
- Synthesized exhibit data into a scalable community-embedded model to improve healthcare access for rural users

UFA Food Relief Donor Assistant | AI Chatbot

Jan 2026

- Engineered an AI chatbot interface using 3+ LLM frameworks to automate donor inquiries and support relief
- Refined the chatbot UI/UX design to streamline the donor journey and increase successful food relief contributions
- Executed prompt engineering and 50+ unit tests to ensure the accuracy and reliability of AI-generated responses
- Iterated on technical documentation and version control logs to facilitate seamless updates with the development team
